## Summary

---

I am an aspiring Software Developer currently pursuing my B.Tech in Computer Science with a focus on Artificial Intelligence and Machine Learning. I am passionate about leveraging my skills in Python and various libraries to create innovative solutions. My projects, which include an AI-powered image editor and a product price comparison app, demonstrate my commitment to developing impactful technology.

## Technical Skills

---

**Languages:** Python, C, html, css

**Frameworks:** NumPy, Pandas, Selenium, BeautifulSoup, Flask, requests

**Developer Tools:** Git, GitHub, VS Code

## Projects

---

**AI-powered image editor** | python, Ollama, PIL, streamlit

- An AI- driven image editor that utilizes a large language model(LLM) to process the user prompts and apply image edits using the Python Library (PIL). The edited image can be easily downloaded by the user.

**ShopSort** | python, Selenium, pandas, streamlit

- A web application that allows users to search for a digital product and retrieve its price across multiple e-commerce platforms.
- The results are displayed in a table, sorted from the lowest to the highest price. The table includes the e-commerce website name, product price, and a direct link to the product on the respective platform.

## Education

---

**Bala Vidya Mandir, Adyar**

*Central Board of Secondary Education*

Chennai, IN

2015 – 2024

**Vellore Institute of Technology, Chennai**

*Bachelor of Technology in Computer Science with specialization in Artificial Intelligence and Machine Learning*

Chennai, IN

2024 – Expected 2028
